PROFESSIONAL SUMMARY

DevOps & SRE Engineer with 3+ years of experience building scalable cloud infrastructure and automating deployment pipelines. Specialized in AWS cloud architecture, Kubernetes orchestration, CI/CD automation, and Infrastructure as Code. Currently supporting healthcare innovation at Tiberbu Healthnet by bridging development and operations. Hackathon champion, AWS certified, and passionate mentor who has trained 500+ students in technology.

WORK EXPERIENCE

DevOps Support Engineer
July 2025 — Present

Tiberbu Healthnet Limited

- Bridge development and operations, streamlining deployments and ensuring rapid, reliable product iterations for healthcare platforms.
- Design and maintain CI/CD pipelines using GitHub Actions and ArgoCD, enabling automated testing, security scanning, and zero-downtime deployments.
- Manage and optimize AWS cloud infrastructure (ECS, EC2, RDS, S3, CloudFront) ensuring high availability for critical healthcare applications.
- Implement Infrastructure as Code with Terraform, automating provisioning of multi-environment setups (dev, staging, production).
- Containerize applications with Docker and orchestrate workloads on Kubernetes, improving resource utilization and deployment consistency.
- Set up monitoring and alerting using Prometheus, Grafana, and CloudWatch for proactive incident response.
- Manage API lifecycle and traffic routing with Apache APISIX for secure, performant API delivery.
- Engineer Health Data Lake pipelines leveraging FHIR data standards for clinical data visualization.

IoT STEAM Associate
Feb 2022 — June 2025

Angaza — Elimu Holdings

- Designed and developed custom IoT development kits and comprehensive training content for real-world projects.
- Built full-stack IoT applications with intuitive interfaces across web and embedded platforms.
- Led training programs in IoT and software engineering, empowering 500+ students with hands-on skills.
- Managed PaaS platforms and cloud services, building foundational cloud infrastructure experience.
- Drove digital marketing through video content that grew the IoT School user base significantly.

Lead, Cloud Department
2022 — 2023

KEKA Precision Technologies

- Managed Platform-as-a-Service (PaaS) platforms, overseeing deployment and maintenance of cloud-hosted applications.
- Participated in designing VMware virtualization solutions for enterprise clients.

TECHNICAL SKILLS

Cloud Platforms:	AWS (EC2, ECS, EKS, Lambda, S3, RDS, CloudFront, IAM, VPC)
CI/CD & GitOps:	GitHub Actions, ArgoCD, Jenkins
Monitoring:	Prometheus, Grafana, ELK, CloudWatch
Databases:	PostgreSQL, MySQL, Redis, DynamoDB
Security:	DevSecOps, Vault, IAM, Compliance
Containers & Orchestration:	Docker, Kubernetes, Helm, ECS
Infrastructure as Code:	Terraform, CloudFormation
Languages & Scripting:	Python, Bash, Go, JavaScript
API & Networking:	Apache APISIX, API Gateway, DNS, Load Balancing
OS & Platforms:	Linux, VMware, Networking

EDUCATION

B.Sc. Statistics & Programming
Kenyatta University, Nairobi
2017 — 2022

Software Engineering Certificate
Moringa School

Data Science with Python
National Research Fund

CERTIFICATIONS

AWS Certified Solutions Architect
Amazon Web Services

AWS Certified Cloud Practitioner
Amazon Web Services

Software Engineering
Moringa School

Data Science with Python
National Research Fund

NOTABLE PROJECTS

Healthcare Appointment Scheduling
Full-stack system with React, FastAPI, PostgreSQL, Docker. Role-based access, JWT auth, real-time scheduling.

SmartFarm (e-Shamba) — 1st Place, Innovate Nairobi Tech Week
Smart farming solution enabling remote farm monitoring with IoT and data-driven agricultural decisions.

Pyrowatch — 1st Place, Microsoft Hack4Climate
Automated fire-fighting solution with IoT sensors for early detection and suppression.

Smart Water Meter (IoT)
Real-time leakage detection and consumption monitoring system reducing water loss and operational costs.

COMMUNITY & IMPACT

Hackathon Champion
2x winner: Innovate Nairobi Tech Week & Microsoft Hack4Climate.

STEM Educator & Mentor
Trained 500+ students at Angaza in IoT, software engineering, and cloud technologies.
